

# JOHAN GRANDAS

## AI Engineer & Frontend Developer

johametinero@gmail.com | +39 333 446 3496 | Napoli, Italy

### PROFESSIONAL SUMMARY

AI Engineer and Frontend Developer with 4+ years building accessible, production-grade web products. I work across the full stack — frontend, backend, databases, and mobile workflows — turning ambiguous business needs into maintainable, AI-enabled systems. Strong focus on accessibility, design-system work, and clean, reliable delivery.

### SKILLS

- **Languages:** TypeScript, JavaScript, PHP, SQL
- **Frontend:** React, Angular, AngularJS, Tailwind CSS, SCSS, Accessibility (WCAG)
- **Backend & Data:** Node.js, REST APIs, MySQL
- **AI:** AI workflows, LLM integrations, automations
- **Tools:** Git, Figma, Vercel, AWS
- **AI Tools:** Claude Code, Codex, GitHub Copilot

### WORK EXPERIENCE

#### AI Engineer

Feb 2026 – Present

Exus – LiveConnect

- Build and ship AI-enabled features across the full stack: frontend, backend, databases, and mobile workflows.
- Design automations and third-party integrations that connect product, data, and user experience.
- Translate ambiguous business requirements into maintainable, production-ready systems.

#### Frontend Developer

Apr 2022 – Jan 2026

Exus – LiveConnect

- Delivered client websites and internal platforms, including LiveConnect (real-time multichannel chat), CRM, and event-management tools.
- Built accessible UI foundations, theming systems, and responsive layouts from Figma designs.
- Developed custom modules in Angular, AngularJS, JavaScript/TypeScript, jQuery, and PHP.
